Barbara,

Is it possible to comb through SDMS to view why EPA had parent company liability for Sequa Corporation? You should look at dates of acquisition of the Site property as well as the dates of changes in names of companies (parent and subsidiary) as well as dates of acquisition of the successor companies . For this you won't need the HQ contractor, all of this should be in SDMS since Courtney had done this already. I was hoping to have this by Friday or maybe early next week since the AOC cannot be turned over until EPA resolves this issue.
